

FIG. 1

A cross-sectional view of a multi-layered structure. The structure consists of several horizontal layers. At the top is a thin layer labeled 112, followed by a layer labeled 111. Below these is a large central region labeled 109. Within this region, there is a central notch or gap. The left and right sides of this notch are labeled 110 and 108, respectively. Below the notch, there are several more layers: 107, 106, 105, 104, 103, 102, and 101. The bottom-most layer is labeled 113. The layers 101 through 107 are shown with different hatching patterns to distinguish them.
